Indranil Tiwary

Designer | Developer | Engineer

Noob Games Pvt. Ltd.

My role as an intern was to **design and develop** website and assist in existing and new **projects**. I designed UI for an app with 10k downloads in playstore. I also helped with several **debugging** of website projects and **design suggestions**. Learnt to **build android app**. Overall it was an **great learning experience**.

AP Solar Works Pvt. Ltd.

Built using **wordpress** and designed with **photoshop**. Applied SEO to the website using a plugin **SEOyast** for **Wordpress**. It was a **freelance project** and the live website is : **apsolar.co.in**. The client appreciated my work and was happy with the final product and turn around time. There were re-iterations in design and functioning according to the client's requirement.

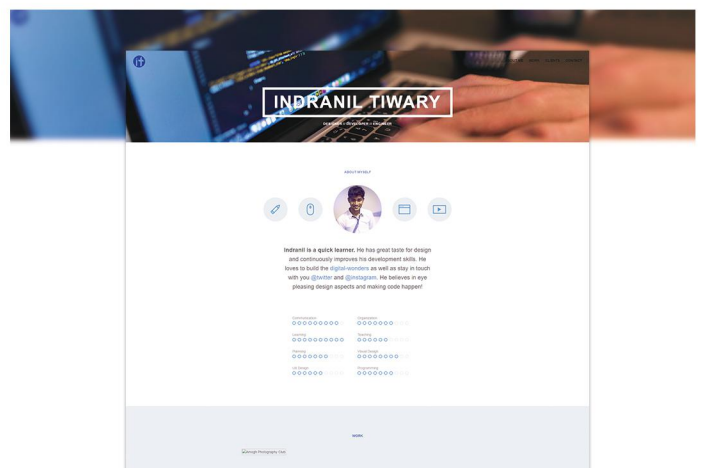

Computer Society of India, SVVV.

Recent **website project** that I have been working on, for the CSI chapter in SVVV (Vaishnav University). Built using **Wordpress** & **PHP** and designed using **Sketch in Mac**. Assigned as the youngest website administrator of the club.

Events Promotion & Freelance Designing

Started the process of learning designing in 2008. Using my skills and knowledge consistently I have kept my improvement graph exponential. Proficient with **Graphic Design [GFX]**, **Print Design**, **Video Editing [VFX]**, **Sound Stabilization and effects [SFX]**. Also helped in creating **Brand Identity with Logo Design**.

Indranil Tiwary [Website]

My personal website that I built to display portfolio and also learn and experiment with new technologies such as **Jade**, **SAAS**, **Build System Gulp.JS** using the code editor **Sublime Text**. I also learnt **Wireframing** and **low and high fidelity** designing using **illustrator** and **photoshop**.
